

WHAT IS PERSONAL DATA?:

Personal data is information that is related to a single person, such as his / her name, age, medical history, diagnosis etc.

WHAT IS CONSENT?

Consent is permission from patients/staff – an individual's consent is defined as:-

- Any freely given
- Specific and informed
- Indication of his/her wishes by which the data subject (patients / staff) agrees to relevant personal data being processed.

The changes in GDPR mean that we must get explicit permission from patients/staff when using their data. This is to protect your right to privacy and we may ask you to provide consent to do certain things like contact you or record certain information about you in your clinical / staff records.

Individuals have a right to withdraw consent at any time.

For further information about how the Practice complies with GDPR, you may view or request a copy of the Privacy Statement from reception or contact the Practice Manager at ellon.administrator@nhs.net

GENERAL DATA PROTECTION REGULATIONS

(GDPR)

GDPR is the new law that determines how your personal data is processed, kept safe and the legal rights that you have in relation to your own personal data. The regulation applies from 25th May 2018.

WHAT GDPR MEANS FOR PATIENTS / STAFF

YOUR DATA:

- ✓ Must be processed lawfully, fairly and transparently
- ✓ Collected for specific, explicit and legitimate purposes
- ✓ Must be limited to what is necessary for the purposes for which it is processed
- ✓ Must be accurate and kept up to date
- ✓ Must be held securely
- ✓ It can only be retained for as long as is necessary for the reasons it was collected

PATIENTS / STAFF RIGHTS:

- ✓ Being informed about how their data is used
- ✓ To have access to their own data
- ✓ To ask to have incorrect information changed
- ✓ To restrict how their data is used
- ✓ Move their patients / staff data from one organisation to another
- ✓ To object to their personal information being processed (in certain circumstances)

GDPR:

GDPR has superseded the Data Protection Act. It is similar to the Data Protection Act (DPA)1998 which the Practice already complies with, but strengthens many of the DPA's principles.

THE MAIN CHANGES ARE:

- The Practice must comply with Subject Access Requests - a written signed request from an individual to see what information is held about them. This must be freely given, specific, informed and unambiguous.
- New special protection for personal data
- The Information Commissioner's Office (ICO) must be notified within 72 hours of a data breach
- Higher fines for data breaches
