Risk Prediction:

Risk prediction data tools are increasingly being used within the NHS to help determine a person's risk of suffering a particular condition, preventing an unplanned or (re)admission and identifying a need for preventive information. Information about you is collected from a number of sources within NHS Scotland including this GP Practice. A risk score is then arrived at through an analysis of your De-identifiable information by ISD Scotland and is only provided back to your GP's Data Controller in an identifiable form. Risk prediction enables your GP to focus on preventing ill health and not just the treatment of illness. If necessary, your GP may be able to offer you additional services.

Scottish Primary Care Information Resource (SPIRE):

NHS Scotland uses information from GP patient records to help plan and improve health and care services in Scotland. You have a choice about the information from your GP records being used in this way. You can opt out from this at any time by contacting the Practice.

For further information concerning SPIRE please contact NHS Inform on 0800 22 44 88.

Emergency Care Summary (ECS):

Emergency care information such as your name, date of birth, the name of your GP, any medicines which your GP has prescribed, any medicines you are allergic to or react badly to, is shared with Out of Hours as this might be important if you need urgent medical care when the GP surgery is closed.

NHS staff (Doctors, Nurses, Accident and Emergency, Ambulance control and crews) can look at your ECS if they need to treat you when the surgery is closed. They will ask for your consent before they look at your records. In an emergency and if you are unconscious, staff may look at your ECS without your agreement to let them give you the best possible care. Whenever NHS staff looks at your ECS, a record trail will be kept so we can always check who has looked at your information.

Key Information Summary (KIS):

Key information summary (KIS) has been designed to support patients who have complex care needs or long term conditions. KIS allows important information to be shared with health care professionals in unscheduled care in the NHS 24, A&E, Scottish Ambulance Service, Out of Hours, hospital and pharmacy environments. Information contained in KIS summary includes, future care plans, medications, allergies, diagnosis, your wishes, carer and next of kin details.

You have the right to request that you do not want care staff to see ECS/KIS. Please contact the Practice on 0345 337 1150 to let us know.
